

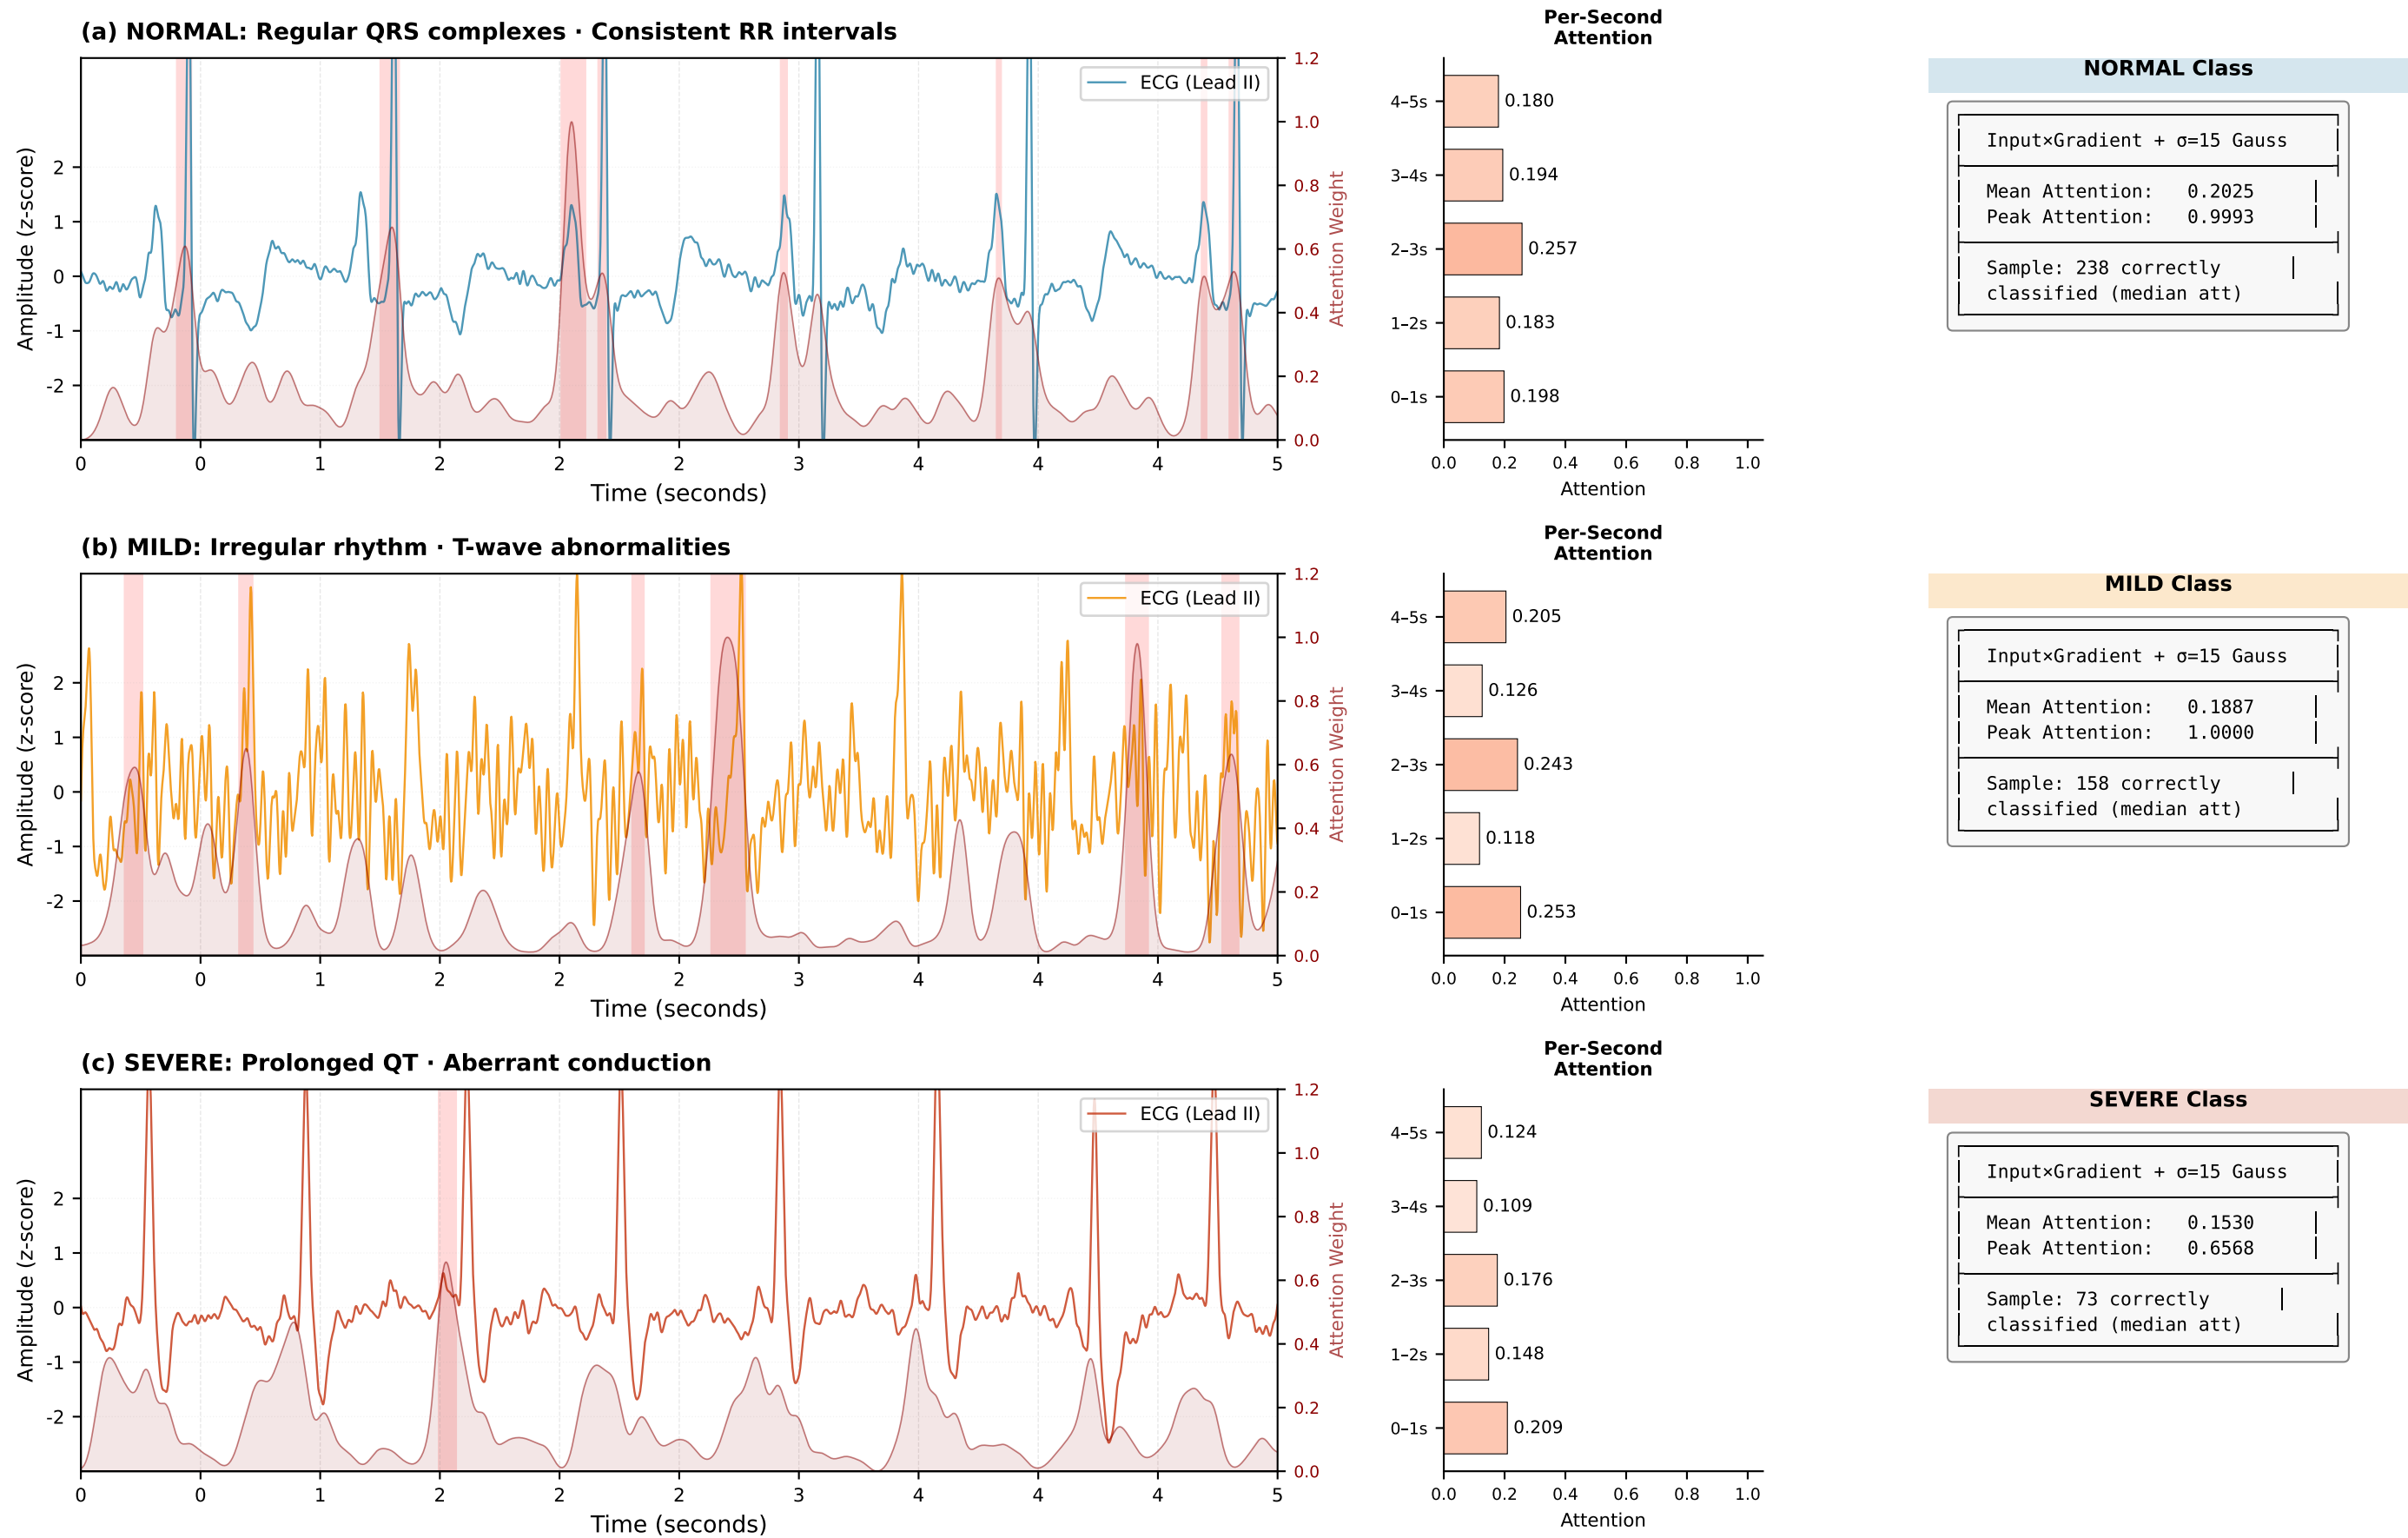

Figure 4: Gradient-based Saliency Maps — ECG Signal Attention
Lead II | 500 Hz | 5-second window | Red shading = high model attention

Saliency: Input×Gradient, $\sigma=15$ Gaussian. Median attention examples shown.
NORMAL (n=238) vs SEVERE (n=73): $p=0.000224$ *** | MILD vs SEVERE: $p=0.003462$ *
